

GENERAL BUSINESS

By checking the “yes” box after each statement, providing clear explanations for how mitigation strategies will be met, and submitting this application, I acknowledge that I will comply with each of the following:

1. **Masks are mandatory and enforced.** Customers and staff shall wear masks that cover their nose and mouth. Staff must enforce that customers wear masks, however, masks may be temporarily removed if required to perform the service, but then must immediately be replaced.

Yes No

2. **6-Foot distancing.** Signs, decals, and staff all ensure people from different households remain at least 6 feet apart.

Yes No

3. **Regular sanitation and cleaning of high touch surfaces.** Surfaces are regularly cleaned and sanitized in compliance with the [CDPHE Cleaning Guidance](#).

Yes No

4. **Daily employee symptom and exposure checks.** Employees will be screened daily for symptoms and exposure to COVID-19. [CDPHE's Symptom Support Tool](#) and [Employee Screening Forms](#) are implemented and used. El Paso County Public Health strongly recommends that screening logs are maintained for at least 30 days.

Yes No

5. **Symptom screening and contact tracing.** All customers will be screened for symptoms prior to entry. All customers will provide their contact information including their name, phone number, email address, the date and time they were at the business to support contact tracing. My business will maintain this information for 30 days after collection.

Yes No

6. **Ventilation.** My ventilation complies with OSHA Guidance and my business has improved ventilation by improving the HVAC system, using HEPA filters appropriate for space size, or opening windows or doors during business hours to maximize airflow.

Yes No

7. **Exposure notification app.** My business will promote the State's COVID-19 Exposure Notification App.

Yes No

8. **At-risk populations.** I have plans specific to protecting at-risk populations. My business will make extra effort to create special hours or accommodations for at-risk populations.

Yes No

9. **Outbreak plans.** I have plans that are specific to my business for detecting outbreaks, reporting them, and responding to them. My plans comply with the requirements in the CDPHE Outbreak Guidance.

Yes No

10. **Outbreaks.** Per CDPHE Outbreak Guidance, if two or more cases are confirmed within 14 days among employees, the workplace/facility could be ordered to temporarily close. Managers must report the suspected outbreak to El Paso County Public Health. Businesses could be reported to the state as an outbreak and that information could be publicly shared. I understand my business could be ordered to close for a period of time if I have two employee cases in 14 days and I will report my cases to the El Paso County Public Health Department.

Yes No

11. **Complaints.** My business will have information on how customers may file a compliance complaint publicly displayed in my restaurant.

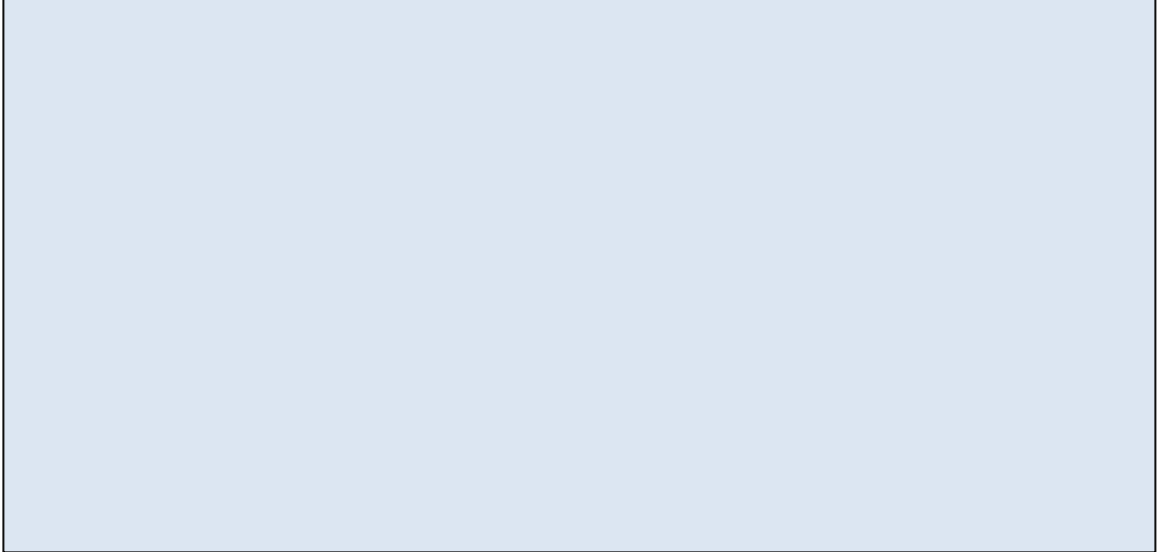

Yes No

12. **Prior citations of noncompliance.** My business has had zero prior citations of noncompliance with public health orders.

Yes No

EI Paso County General Business Mitigation Strategies:

13. Please provide a brief description of your facility's layout. How is appropriate 6-foot social distancing implemented?

14. Masks are mandatory and enforced. Businesses must have mask wearing protocols for staff and customers. Businesses must have methods for enforcement of mask wearing & accommodating those who are exempt from the mask requirements. Describe how you will meet this requirement by answering the following questions: How you will enforce the mask requirements for both employees and patrons? What will you do if an employee or a patron is not in compliance? How are the mask requirements communicated? Do you provide masks to your employees or to patrons that do not have one? What will you do if someone claims to have a medical or other exemption from the mask requirements? Please note that simply letting them enter the facility without a mask is not a reasonable accommodation under the Americans with Disabilities Act.

15. Social Distancing Requirements must be adhered to. Signs, decals, and staff all must be used to ensure that people from different households remain at least six feet apart from one another. Describe how you will meet this requirement.

a. Will you require reservations?

Yes No

b. If no, please describe how you will keep non-household members properly distanced and how you will prevent people from congregating in high-volume areas.

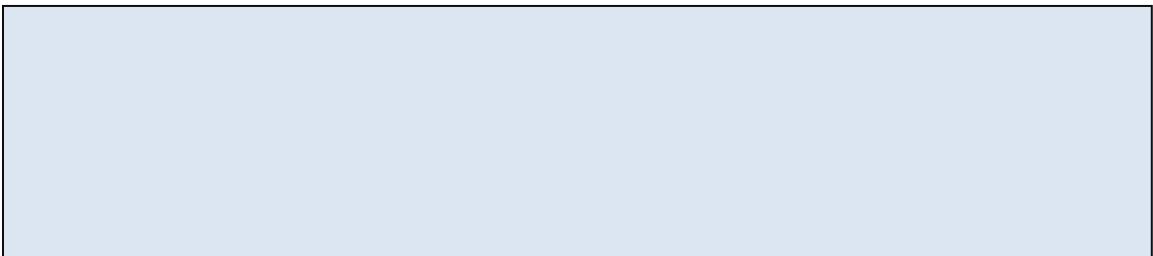

[Response If Above is Marked No]

16. Businesses must have plans for regular sanitation and cleaning of high-touch surfaces. These plans must at a minimum comply with the CDPHE Cleaning Guidance. Describe how you will meet this requirement. Please include how often you will clean these surfaces, the cleaning products you are using including the EPA registration number on the container, whether you have a cleaning log, and other relevant information. If you need help determining if a cleaning product is approved for COVID use, please use the EPA product look-up tool.

17. Businesses must have daily employee symptom and exposure checks. Businesses are encouraged to use the CDPHE Symptom Support Tool and the Employee Screening Form. Describe how you will meet this requirement. Please include details such as whether you use temperature checks or screening questions, whether you perform the screening on-site or ask your employees to self-screen at home, and how you keep track of employees that were sent home. If you have a screening template, please upload it as an additional document. El Paso County Public Health strongly recommends that the screening logs be retained for at least 30 days.

18. Businesses must implement protocols to minimize disease transmission. Such protocols include requiring employees to wear gloves when disinfecting equipment or surfaces or when interacting with customers and encouraging frequent breaks for employees to wash their hands. Describe how you will meet this requirement. Please include a detailed description of all strategies used to minimize disease transmission including: how often employees wash their hands, whether gloves are required, and if so how often they are to be changed, whether glass or plastic barriers have been installed at high-interaction points like check-in areas or pay counters, whether touchless payment is provided as an option, whether you use disposable or single-use items, how often you wipe down shared objects like equipment, or any other relevant details.

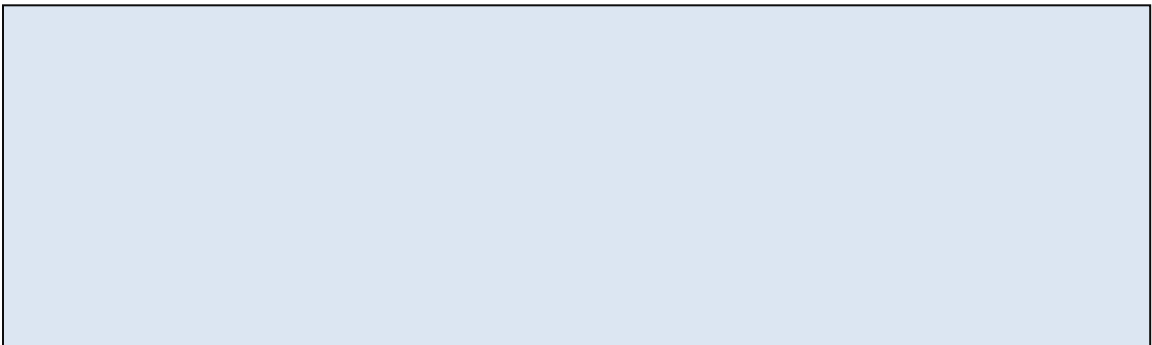

19. Businesses must screen customers for symptoms of COVID-19. How will you do this for customers and what will you do if a customer does not pass the symptom screening?

20. Businesses must have a plan to detect outbreaks, reporting those outbreaks, and how they will respond to outbreaks. The plan must conform to the following guidance. Please either put your plan into the textbox below or upload it as a separate document. Please note that an outbreak plan is distinct from a plan that addresses when one employee shows symptoms or tests positive for the virus.

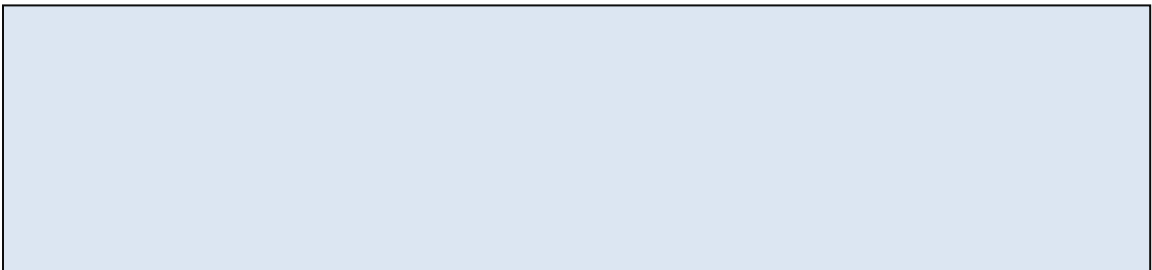

21. Businesses must have sufficient quality ventilation – what is the ventilation in your facility and how does it meet the state-required guidelines? Examples include upgrading filters, continuous operation of HVAC systems, limit recirculation of air, and maximize outdoor air supply through open doors and windows when possible.

22. Businesses are required to promote the State's Exposure Notification App. Describe how you will meet this requirement.

23. Businesses must have publicly displayed instructions for a customer to lodge compliance complaints. Describe how you will meet this requirement.

24. Businesses are encouraged to make strong efforts to provide special hours or accommodations for at-risk populations. Describe how you will meet this requirement. Special hours are not required. They are one method of providing accommodations to at-risk customers. If you plan to allow at-risk patrons to use a separate area, please describe the additional measures you will take to provide for their safety such as areas that are distanced more than 6 feet apart, fewer people overall in the space, required hand washing or glove changes prior to interacting with this population, etc. Please note that asking these customers to take advantage of these options is a reasonable accommodation.
